Once more?

Men don't seem to realize—and women just can't explain, when month after month along comes that dragging, sickening pain. But you need not suffer at all at this time—Myzone chases pain right off the calendar.

No matter how much you've always suffered—take a tiny Myzone tablet in time, and the dreaded pain won't even begin. Each tablet protects you from pain for 12 hours or longer, and even when pain is worst, Myzone ends it in 5 to 10 minutes.

Myzone brings quick and positive relief from all female pain peculiar to women, because it acts direct on the organs affected. It is not a narcotic, and cannot interfere with normal processes. Two or three months' supply in a dainty aluminium case—2/-, at any reliable chemist. (Trial packets, 1/-).

*Chemists also recommend Myzone for migraine headaches, backache, cramping, hot flashes—at any time of the month.

***** Every Original Myzone Tablet is plainly branded with the name MYZONE, to enable users to identify the genuine, and to safeguard against ordinary aspirin or phenazone, or cheap, ineffective or dangerous substitutes, imitating the Myzone name or style of package.

ISN'T HE A PET?—A group of children admiring the lion cub recently brought from overseas and presented to the Zoo. The admiration does not appear to have been mutual.

"I'M THE BOSS, I TELL YOU!"—Building operations had to be suspended until a settlement was reached between Ronald and Lance Cockington on Largs beach yesterday.

Backache!

Is your life a daily torture?

Short, sharp, stabbing pains in the back when you rise from bed, real torture to straighten the body after stooping; you say: "Oh! this terrible backache!" Do you know that the painful symptoms you complain of are sure signs of dangerous kidney trouble? Just as a "creaky" door tells you there is something wrong, so painful, chronic backache, stabbing-like pains when you bend or move, a constant, "tired-out," "too-old" feeling tells you there is hidden trouble in the body. Chronic backache is in all probability the start of serious lumbago, painful rheumatism, or perhaps bladder trouble. They all point to one thing—kidney trouble. The poisons or harmful bacteria are accumulating in the blood, with the result that sensitive nerves send their S.O.S. to the brain to ask for help—that is why you suffer pain. Poisons are being stored up in the blood, which, lodging in the muscles and joints, are causing a state of inflammation. It is no use rubbing your body with ointments, for the trouble is in your blood. Until you prompt the kidneys to filter out the pain-giving poisons, you cannot hope to be rid of body and nerve-wracking pain.

Sufferers from chronic backache—the days when you had to spend hard-earned money experimenting with ointments, plasters and potions you "hoped" would help you are past. There is no need to sit in dreadful pain "wondering" if your body-torturing, brain-wracking trouble can be banished. We are convinced that, with the genuine remedy, De Witt's Kidney and Bladder Pills, taken regularly, your suffering will quickly end. For over 40 years these pills have proved invaluable for all forms of rheumatism, chronic backache, etc. Because of their enormous popularity, De Witt's Pills have been imitated. For your own sake, definitely refuse such substitutes. Let this letter, but one of many, help to convince you of the wonderful benefit to be derived from De Witt's Pills. Mr. W. C. Everett, 155 Weston Road, Rozelle, Sydney, says:—"After suffering with Backache for two years, and trying many remedies in vain, I was told about De Witt's Pills by one of my workmates, and decided to try them. The first few doses told me that here at last was something which would give me relief. One large bottle was sufficient to bring me back to perfect health."

Ask your chemist how good they are. Small size price 3/6. Large size (2 1/2 times the quantity), 6/6.
