

FROM THE OFFICE

SAILING SHIP PHOTO COLLECTION

Mr Jeremy Fry (CANOPUS) has kindly presented to the Squadron a collection of "tall ship" photos mounted in an album in the hope that other members may be able to add to it and that it may be included in our library. If anyone has any old photographs of sailing vessels that they would like to donate to the club, could they please forward them to the Office (clearly marked and identified).

SQUADRON XMAS CARDS

The new style Squadron Xmas Cards are now available at a cost of \$1 each. I hope that members approve of the artwork inside, and that the style is appropriate to a Royal yacht club.

XMAS/NEW YEAR OFFICE ARRANGEMENTS

The Office will be closed on all public holidays, but the Manager will be on duty except for Xmas Day and New Year's Day. Bar and Dining Room arrangements are displayed on the Notice Board.

LOCKS FOR SAIL LOCKERS

Members who have not collected their new locks for Sail Lockers are once again requested to do so please. This applies to all Sail Lockers, no matter which shed.

FREQUENCY 6215.5 kHz PROPOSED FOR OCEAN RACES

The Department of Communications has written to the Royal Volunteer Coastal Patrol advising that they are

FROM THE OFFICE

considering the date of 1 July 88 for the mandatory fitting of the frequency 6215.5 kHz to all yachts competing in ocean races. The RVCP has written to us asking if any of our members have radios that can operate on 6215.5 kHz. Could you please let me know if your radio has this frequency, and I will pass the information on to the Patrol.

On behalf of all the staff, our thanks to members for their support and co-operation throughout the year. Our compliments of the season to all.

MIKE DYER
