

Reverse Salute

For more years than most of us can remember Harry and Edna Cook in ANYNDAH have marked the rounding point for sailing vessels on Opening Day. This year engine failure forced them to accept a tow and prevented ANYNDAH from her traditional responsibility of concluding the sail past. In

a nice gesture the official boat steamed past ANYNDAH, to give her and her crew three cheers of acknowledgement for Harry's longstanding participation. As our Honorary Gunner Harry made a fine and suitably noisy signal for the opening of the official event and for lowering of flags. **SQ**

ANYNDAH saluting, Opening day, 1992
